

HEAVY DUTY RUGGED DESIGN for commercial and regulatory purposes

We take great pride in developing close working relationships with our customers during design, construction and acceptance trials.

PARTICULARS:

- **LOA:** 36' (hull)
- **Beam:** 16'
- **Draft (light):** 10"
- **Propulsion:** Twin UltraJet 250 waterjets
Twin John Deere 125 hp diesel engines

Other features:

- Full wheelhouse
- Large work deck
- 1500 lb. hydraulic crane
- Hinged loading ramp

Our reputation for quality and excellent craftsmanship is well established. The team has a detailed working knowledge of all marine standards, including Transport Canada (TC), American Bureau of Shipping (ABS), and American Boat and Yacht Council (ABYC).

MANUFACTURING STANDARDS

Certified by the Canadian Welding Bureau to Aluminum Welding Standards CSA W.47.2

ABCO maintains a strict quality assurance system

ABCO acquires project related code certifications as required

Advantages of ABCO Aluminum Boats

- Very durable; well suited for commercial use
- Rugged welded aluminum construction
- No rusting, rotting, delamination
- No gelcoat chipping or water soaking, etc.
- Paint required only for cosmetics or anti-fouling when necessary
- High strength to weight ratio and particularly suitable for higher speed applications
- Minimal upkeep and maintenance costs
- Deck arrangements, topsides can be customized
